

MAL065 - Ta' Kalc 1

Description

Ta' Kalc is a cluster of artificially constructed reservoirs, intended for irrigation and water storage, located in western Malta within Dingli. The reservoirs were constructed out of cement and cover an approximate area of 1,110m2. The site is accessible by the public through a dirt road. The reservoir is predominantly surrounded by agricultural land, with pipelines scattered throughout nearby fields, indicating that the reservoirs are likely being used for irrigation. A single Ceratonia siliqua is present growing within the basin of the eastern reservoir. This reservoir borders the Coastal Cliffs Area of Ecological Importance, Area of High Landscape Value and Special Area of Conservation – International Importance.

General information

Basic information

| Wetland location: | Inland |
|--|--------------------------------|
| Wetland type: | Artificial |
| Natural / Artificial: | Concrete reservoir |
| Area (Ha): | 0.10 |
| Hydrological interaction with other wetland: | No - |
| Water salinity: | Fresh (< 0.5 g/l) |
| Fresh water entry: | Catchment area (precipitation) |
| Surface water runoff: | Outflow controlled by pipeline |
| Open water area (%): | > 95 |
| Hydroperiod: | Permanent |
| | |
| Geographic information | |
| Census district: | Western |
| Island: | Malta |
| Local council: | Had-Dingli |
| Coordinates (WGS84): | 14.374460 E - 35.859420 N |
| | |
| Biological significance | |
| Biological significance: | Low |
| | |
| Ramsar wetland types | |
| Ramsar type | Coverage (%) |
| | |
| 6 Water storage areas; reservoirs/barrages/dams/impoun | |
| | |
| Property status | |
| Private | |

Protection statuses & other designations

Protection status

| Protection status category | Protection status subcategory | Site name | Code | Coverage (%) Legislation |
|----------------------------|---------------------------------------|--------------------------------|-------|--------------------------|
| International | Important Bird and Biodiversity Areas | II-Kullana to ta' Gifen Cliffs | MT008 | 100 |
| Important bird areas | i - | | | |
| IBA Code | Site name | | | Coverage (%) |
| MT008 | Il-Kullana to ta' Gifen Cliffs | | | 100 |

Ecosystem Services, Activities & Impacts

Ecosystem Services

| Type of Ecosystem service | Ecosystem service | Scale of Benefit | Importance |
|---------------------------|----------------------|------------------|------------|
| Provisioning services | Food | | |
| Provisioning services | Fresh water | | |
| Supporting services | Provision of habitat | | |

Activities on wetland

| Activities | Intensity |
|-----------------------------|-----------|
| 020 = Resource conservation | High |
| 130 = Irrigation | Medium |
| 701 = water pollution | Medium |

Activities on drainage basin

| Activities | Intensity |
|----------------------------------|-----------|
| 100 = Cultivation | Medium |
| 110 = Use of pesticides | Medium |
| 120 = Fertilisation | Medium |
| 130 = Irrigation | Medium |
| 401 = continuous urbanisation | Low |
| 402 = discontinuous urbanisation | Low |
| 430 = Agricultural structures | Low |
| 502 = roads motorways | Low |
| 701 = water pollution | Medium |

Impacts

| Impact type | Intensity |
|--|-----------|
| EE- = Increase of economic potential | |
| ES- = Increase in water supply | |
| PF- = Fertilizer/Excess nutrient pollution | |
| PP- = Pesticide pollution | |

Habitats & Vegetation

| Vegetation types | |
|-----------------------|--------------|
| Vegetation type | Coverage (%) |
| Emergent | < 5 |
| Shrubby / Arborescent | 5 - 25 |
